

Dear brothers and sisters,

In March was filled with the inner workings of the church. We were glad to see Walter and Chris in Lviv. They had opportunity preach to us. And to inspire our small spiritual family here in Lviv.

In March, we continued to hold regular church meetings. We finished study Gospel of John and start book of Acts. Several times this month we had visited a boarding school for boys (older teenagers) in order to make good relations with the administration of the boarding school and with the children and for further evangelize.

In April, we had guest missionaries, a family couple from America came to visit us. With whom we organized daily English through the Bible. We gave an announcement to the local newspaper and social networks. For all the time we had regularly visited about 20 people from outside the church. We hope to continue to contact and evangelize these people by inviting them to the church. Especially after the missionaries leave.

We continue to search all possible for evangelism to spread the word of God.

I and my family, we are very grateful for your prayers and support that you provide for the work of God that we do. God bless you abundantly!

Your coworker in Christ,

Stas.
