

Dear brothers and sisters, Greetings from Lviv Ukraine!

In July and August, Lviv Church of Christ continued its active work despite everything. We put goals only to grow ministries to preach the gospel. The church meets every day during the week, sometimes even several times a day. All this is done to strengthen in faith of Christians and to preach Christ to the unbelievers.

Lviv Bible School

We have started a new school year. To our surprise, many people got interested in our format for studying. Right now we are the only Bible school with the biggest number of online and offline students, that has over 20 students. We have already got the schedule for the semester. One Bible course is taught about 20-30 hours, which allows the students to study the topic or book of the Bible on a very good level. I keep trying to engage other teachers, good brethren, strong in faith, and wonderful Bible scholars. So if you are willing to teach a Bible course, please message me. Also if you are willing to support this ministry financially (especially such expenses of the school as: study materials, print-outs, books, etc.), you can also message me.

Work with the children

Our church keeps giving a great attention to our children and also to the children of internal refugees who suffer during the war and were forced to move to Lviv. We try to show them God's love through the ministries that our church provides. Our ladies in the church, and sometimes men, are very active in the work with the future generation of Christians of Ukraine. We still have an active Christian club for children on Saturdays and Sunday Bible school for children.

Bible classes for ladies

Ladies keep meeting every Monday for joint prayer and fellowship. Our church is trying to assist them in every way to develop this ministry.

Youth group meetings

Our youth group meets on Saturdays after the kids' club; and whenever it is possible we try to connect these two ministries in a way that kids, who become

teenagers, we invite to youth group meetings, so that on every stage of growing up, the faith of new Christians would grow.

Sunday worship

No matter what, church keeps meeting, in order to remember about Christ every Sunday even if there are air raid sirens warning about rocket danger. On Sundays we still have about 50 people in attendance together with the children, and we always have guests/non-Christian's. Also we are happy that we had an opportunity to rent a bigger hall in the same building we were previously located. We started feeling that the church is growing and that place was too tight, and now we worship together with more space.

Dear brothers and sisters, I ask you to keep praying so that the war in Ukraine would stop, and for safety of Christians in Ukraine. Pray for brothers and sisters in the army that are protecting their country. Unfortunately, I must tell you that one of our brothers, who was drafted into the army, died in action in august defending our country. Please pray for his family, for his pregnant wife, and his little child.

I am grateful for your support both in prayers and in finances. If you want to contact me and learn more about ministries in Lviv and in Ukraine and if you want to help in these ministries, please write or call me.

God bless you all abundantly!
Your brother and coworker in Christ, Stas
