

Hello Brothers and Sisters, Happy June!

This past month has been full of changes, both good and bad. To begin, Savannah has become more proficient at crawling and can officially pull herself up. She loves "singing" especially at the assembly, and in the bible class she loves to "pat" the bible. She loves to eat just about everything she can get in her mouth; her favorites so far are gnawing on steak and eating cut-up fruit, specifically watermelon and strawberries.

School is going great, I am halfway through my second year and halfway through the entire program. I will walk at "graduation" in June from the two-year biblical studies portion, but will not finish it until January due to my start time. After that, only one more year!

In the past month, I had the privilege to preach at the congregations in North Charleston, Dayton, and East Bristol. Each time was extremely uplifting and full of great fellowship. Wednesdays this quarter, I will be teaching Mark in the college class at Central. I still teach the 5th-grade and 6th-grade classes on Sunday mornings. Sierra is teaching the Pre-K class this quarter as well. We are blessed with the opportunity to teach others about God.

On May 4th, we unfortunately had to put our senior dog down; she had a bad stroke and could not recover from it. She was a wonderful dog and will be greatly missed.

Sierra, unfortunately, due to shifting dynamics at work, has lost her job. We have two needs: first, your prayers. Effective and fervent prayers of the saints are powerful. Second, we have a need to increase our support, and to achieve this, we require your assistance and your contacts. We need to increase the monthly amount we receive from \$1,850 to \$3,400 by the beginning of September if Sierra has not found a job by then. Pray on this and reach out if this is something that you can help with. But most importantly, pray. We trust God first and foremost.

In addition to our personal needs, the school has an opportunity to purchase a house one block from the school, which would solve the student housing issue that prevents prospective students from attending the school. Attached will be a flyer regarding this information.

Thank you for all of the work you do and the support you give to the Lord's work

In Christian Love, Nathan, Sierra, and Savannah Tate
