

Hello, Brothers and Sisters, Happy July! I hope the summer heat has not been too severe; we are praying for those without AC during these days. We recently had ours repaired after one year without it.

School is on break over the summer, but the work does not cease. After walking at graduation, many of us have gone our separate ways, and most of us students will be busy filling in preaching or traveling over the summer. We will be leaving Friday, July 10th, for PTP Branson. I will be assisting with the school table, and Sierra will be teaching the 6-year-olds again. On the way, I will be preaching at the Eagleville Congregation in Middle TN on July 12th.

Savannah is doing exceptionally well; she has started really communicating with her words and almost communicates in full sentences depending on what it is. Sierra and I work with her daily on reading, color recognition, and counting. Children are a great blessing, and we have been very blessed with her.

Sierra is doing well. She recently went to Ardmore, TN, to assist her cousin's wife with moving into a new home. She has two sons; the older one, who is Savannah's age, is paralyzed from the waist down due to a lack of spinal cord development. He has not moved his legs in over a year, but this past week he moved his legs of his own accord. We are praying that development will continue and that he will one day gain some sort of function of his lower body. We praise God for His incredible creation and care. Please continue to pray for them; God knows the names.

Sierra has also been helping develop and market an AI Bible Study App called Berean Study. This App has several functions; the primary goal is to help Christians study and find reputable resources that teach sound doctrine. Currently, it has been integrated with material from Apologetics Press, Gospel Broadcasting Network, The Light Network, and World Video Bible School, as well as several congregations, all of which you can pick and choose from to enable or disable for your responses. It also has a class function to help one study and prepare bible class material and devotionals in addition to the typical questions and answers. The App is available on the Apple App Store for iPhone users but is not yet available for Android users; hopefully, it will be by next week. They will have a booth at PTP Branson and Sevierville. Please swing by and say hi. I believe the app will be extremely useful to the kingdom. For more information, please visit <https://bereanstudy.app>

As always, thank you for your continued prayers and support. We are nearing the finish line, two more quarters, 6 more months. We have begun to look for possible positions and look forward to making the time, labor, prayer, and investment you have given to us pay off.

In Christian Love,
Nathan, Sierra, and Savannah Tate
